ORDER:

The Provincial Textile Commissioner reports that in many districts wholesale dealers in mill cloth have been may ~~not be pos~~ selected in out-of-the way places and that consequently it may not be possible to send waggon loads of cloth direct from Bombay to them. Goods sent from Bombay in cloth waggons may reach their destination in this Province in about 10 days whereas small consignments will take six to seven weeks. In order to minimise the time taken for the transport of cloth to wholesale dealers the Provincial Textile Commissioner proposes the appointment of twenty six wholesale consignees, two in each of tne districts of Coimbatore and Malabar, the Nilgiris District being clubbed with Coimbatore District and one in each of the other districts. The actual location of the cosignees will be decided by the Provincial Textile Commissioner in consultation with the Collectors. The wholesale cosignees will receive the cloth direct from the representative buyers to whom they will be linked. They will function as the sole distributors in their districts for mill cloth procured, from Bombay other than the cloth allotted to the Co-operative institutions. They will promptly pay for the consignments on receipt of railway receipts, store and distibute the bales at the rate of 15 bales to each wholesale dealer according to an ad-hoc formula of distribution. The Government approve these proposals.

2. The Provincial Textile Commissioner propcses that the total margin to the trade may be 20 per cent of the ex mill price in respect of the mill cloth coming from Bombay and 16.25 per cent of the ex mill price in respect of the cloth produced in local mills. The wholesale price of the cloth coming from Bombay will be ex mill price plus 10% thereof, ~~x~~ The wholesale price of the cloth from local mills will be ex mill price plus 6.25% thereof and the retail price ex mill price plus 16.25% thereof. ~~x~~ and the retail price ex mill price plus 20% thereof.

The total margins will be allocated as shown below:

	Cloth from Bombay.	Cloth of local mills
Representative Buyers Commission.	1.75%	--
Transport and other charges including transit insurance.	2.75%	1.50%

The Government approve the proposals of the Provincial Textile Commissioner.

3. The Provincial Textile Commissioner proposes that the total margin to the trade in respect of yarn may be 7 and 13/16 per cent of the ex mill price and that this may be split up between the wholesaler and retailer at 3 and 1/8% and 4 and 11/16% respectively. The actual transport charges and sales tax will be passed on in addition to the above margins The Government approve these proposals.

4. The Provincial Textile Commissioner is requested to give statutory effect to these Orders fixing margins of profit and to issue a press statement explaining their scope and the date from which the margins will come into effect.
